ABDULRAHMAN ITSEGHOSIME BELLO

SOFTWARE DEVELOPER · FRONTEND DEVELOPER

Abuja, Nigeria · +234 810 901 3969 · hello@itseghosime.com
itseghosime.com · github.com/itseghosime · linkedin.com/in/itseghosime

PROFILE

Software Engineer and frontend developer building responsive, maintainable websites with React, Next.js and TypeScript. Experienced in CMS integration, testing and production deployment. Uses AI-assisted workflows to accelerate development while personally reviewing and validating every release.

EDUCATION

Bachelor of Engineering in Industrial Engineering

University of Benin • Jan 2023 – Aug 2026
Academic requirements completed

- Designed and fabricated an IoT-monitored egg incubator using ESP32 microcontrollers and DHT22 sensors
- Studied operations research, forecasting, inventory modeling, queuing theory, maintenance, and reliability engineering

EXPERIENCE

Freelance Frontend Developer
Independent · Remote · Feb 2023 – Present

- Delivered more than 20 paid client projects involving responsive development, CMS integration, deployment and website handover.
- Translate Figma design into production ready website using React, Next.js, Typescript and Tailwind CSS.
- Integrated Sanity, Hubspot and Wordpress while applying responsive testing, accessibility and performance optimization.
- Manage production deployments, DNS configuration and technical handover for clients.

Engineering Intern — Projects Department
NNPC Exploration & Production Limited · Benin City · Jul - Nov 2025

- Gained field experience at Oredo (OML 111) and Ovade–Ogharefe (OML 98), observing oil and gas processing operations.
- Recorded pressure, temperature and flow-rate readings to support production monitoring and daily reporting.
- Collected crude-oil samples and assisted with API gravity and water-content testing.
- Studied process diagrams, project documentation and HSE procedures.

Frontend Developer
Lendasat · Part-time · Oct 2024 – Jan 2025

- Contributed React interface improvement to a peer-to-peer Bitcoin-backed lending platform.
- Resolved assigned GitHub tickets and submitted changes through pull requests for review and integration.
- Contributed to landing, borrower and lender facing product areas while making UI and UX decisions.
- Created product documentation in Markdown and participated in code review.

Frontend Developer & Technical Facilitator
Genius Hub Limited · Full-time · Benin City · Nov 2021 – Jan 2023

- Designed lesson plans and trained more than 100 learners in frontend development, computer appreciation and graphic design.
- Taught HTML, CSS, JavaScript and React through group and one-to-one classes.
- Rebuilt the organisation’s website and migrated it to Wordpress so staff could manage content independently.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML, CSS
Frontend: React, Next.js, Tailwind CSS, Responsive design
Backend & Data: Node.js, Firebase, Supabase
CMS: Sanity, HubSpot CMS, Wordpress
Testing: Vitest, React Testing Library, Puppeteer
Tools & Automation: Git, Github, Github Actions, Figma, GSAP, Framer Motion n8n, Make.com

SELECTED PROJECTS

EnvGuard - Developer Tool
TypeScript · Node.js · Vitest · Github Actions
github.com/itseghosime/envguard

- Published an npm CLI that detects missing or malformed environment configuration without exposing secret values.

Skinnycans - Client Website
Next.js · TypeScript · Jun – Oct 2025
skinnycans.com

- Built and launched a responsive production interface from a supplied Figma design.
- Implemented multilingual architecture, optimised media and managed deployment and DNS.

RawLab Ventures - Client Website
HubSpot CMS · Jotform · Jul – Oct 2025
rawlab.ventures

- Converted the complete Figma interface into published HubSpot CMS pages and connected two Jotforms to HubSpot.

CERTIFICATIONS & DEVELOPMENT

Software Development — Full Stack

TS Academy · June 2026–Expected February 2027

Studying HTML, CSS, JavaScript and React, with backend development beginning in the next phase.

Artificial Intelligence Training

Tech4Youth · September–December 2026

Building automation workflows with Make.com and n8n, including a chatbot for business enquiries and order reservations.

AI Foundations

OpenAI Academy · Sept 2026

Completed the programme assessment covering AI and LLM fundamentals, prompt writing, context setting, output evaluation and responsible AI use.

SIWES Certificate of Completion

NNPC E&P Limited · November 2025

Awarded for completing a five-month industrial training programme, July–November 2025.

Web Design, Development and Digital Skills

EdoBits · Nov 2020 – Sept 2021

Completed a one-year programme covering web development, graphic design, UI/UX and digital workplace skills. Awarded **Best Web Graduating Student.**
